The Situation

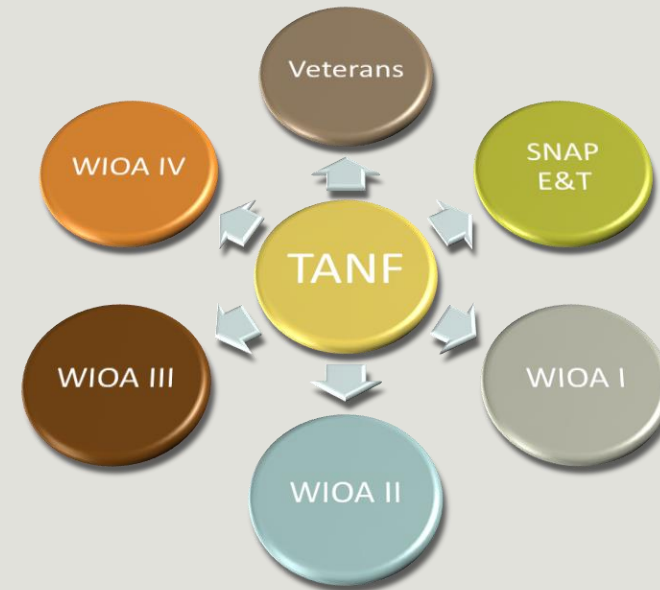

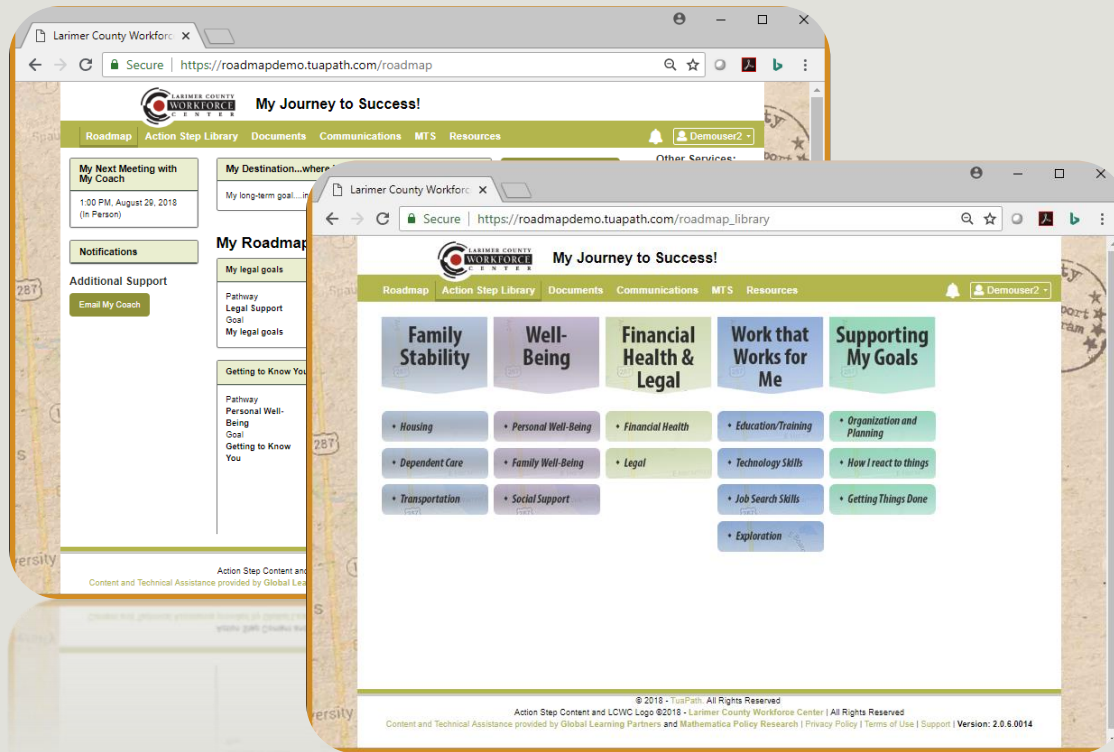

Larimer County Economic and Workforce Development Department is:

- ❖ Wanting to provide services to more people with diminishing resources
- ❖ Looking at ways to leverage skill sets of team members between programs
- ❖ Trying to provide a more unified and consistent delivery of job seeker services
- ❖ Facing new budget cuts

First Thought

TAKE SOMETHING WORKING IN TANF

APPLY IT TO OTHER PROGRAMS

❖ Collaboration

- ❖ Willing staff
- ❖ Too many program-specific elements
- ❖ Individual program priorities

❖ Logistics

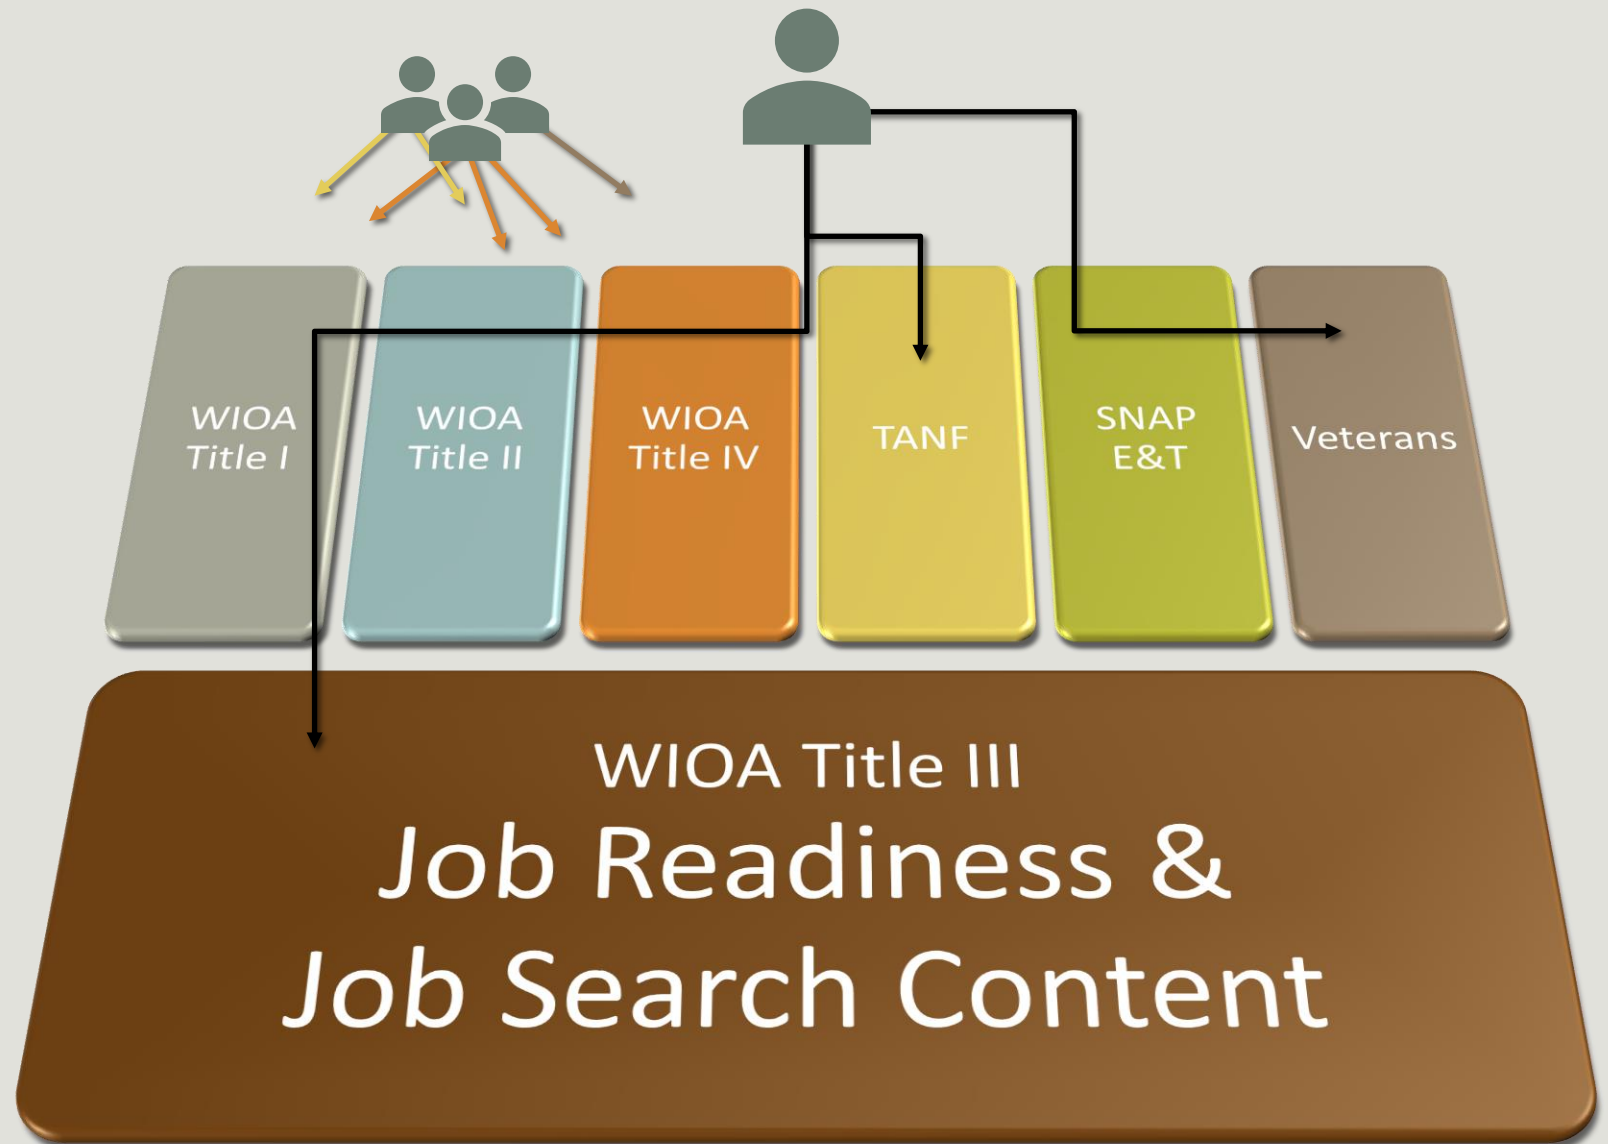

- ❖ Data management
- ❖ Participant access
- ❖ Coach access

Barriers and Obstacles

Both Apparent and Potential

Better Thought

- ❖ Create a core content set that can be used by any participant from any program
- ❖ Add additional program-specific content
- ❖ Allow multi-program enrolled participants to access all from a single login and site
- ❖ Allow participants to determine which/what coaches from different programs can see

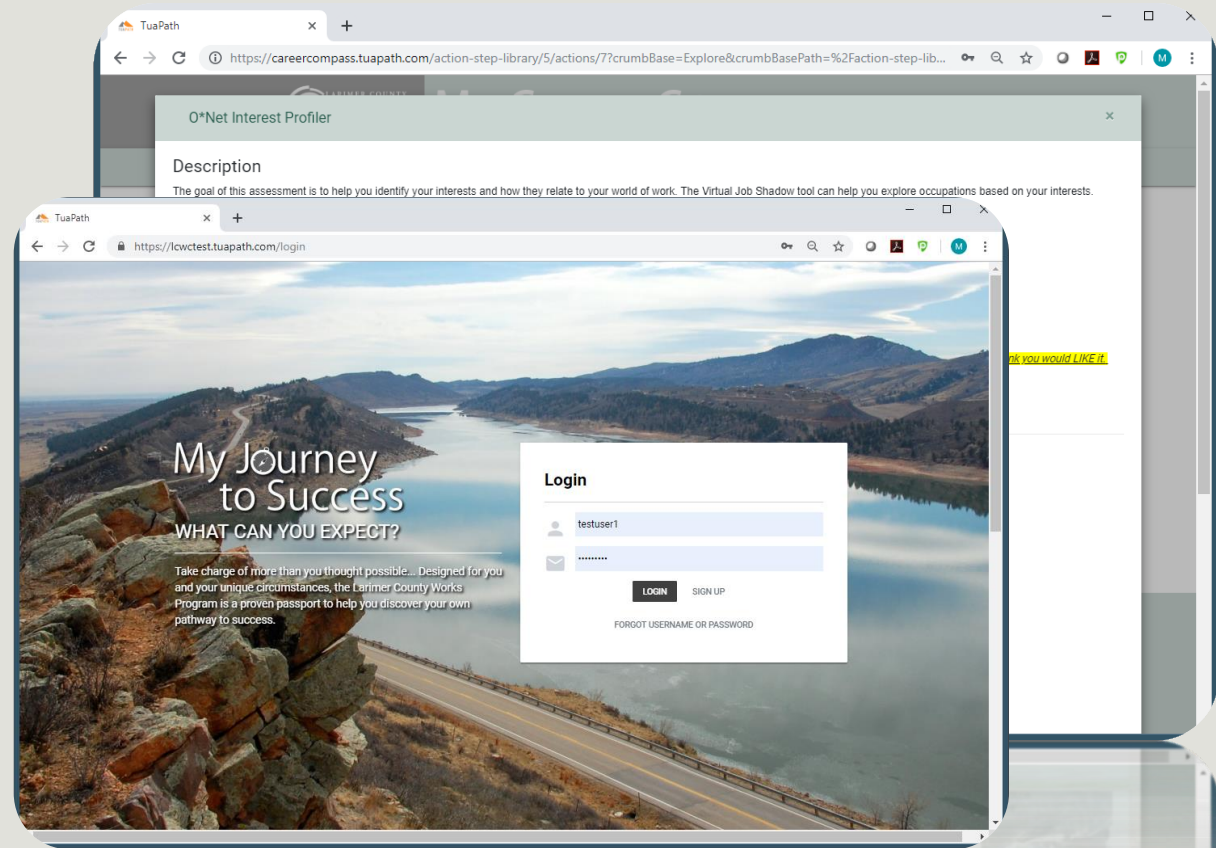

- IDENTIFY THE CORE
- CREATE A NEW SITE BASED ON THE CORE
- ROADTEST
- UPDATE AND REVISE
- ROADTEST
- INTEGRATE WITH FIRST ADOPTER PROGRAM
- INTEGRATE OTHER PROGRAMS

Game Plan Checklist

Creating a Method to Avert the Madness

Current Progress

- ✓ IDENTIFY THE CORE
- ✓ CREATE A NEW SITE BASED ON THE CORE
- ✓ ROADTEST
- ✓ UPDATE AND REVISE
- ✓ ROADTEST
- ❑ INTEGRATE WITH FIRST ADOPTER PROGRAM
- ❑ INTEGRATE OTHER PROGRAMS

The Goal

For the Larimer County Workforce and Economic Development Department to:

- ❖ Provide more 24/7 services to more people in the community
- ❖ Provide a more unified and consistent delivery of job seeker content
- ❖ Leverage expertise from each program across the entire office
- ❖ Operate a single, two-way facing system for both coaches and participants
- ❖ Give participants
 - ❖ Ownership of their data
 - ❖ Greater self-determination

A new lens to see the Economic and Workforce Development Department as a single team, working together to assist participants on their journey
